SOURCE: [REDACTED]

On 1 July 1951, 69 single-engine low-wing monoplanes with in-line engines were parked in two rows on the northern edge of Reinsdorf airfield, where flying was repeatedly observed recently. About five biplanes were also parked at the field. There was no flying on 1 July. Motor vehicles

25X1C [REDACTED] The road leading from Reinsdorf to the south was blocked by a barrier. Trenches for sentries were around the field. Temporary buildings which were occupied were seen on both sides of the road, just south of the barrier. \*
